

Muhammad Faisal Irshad

Ali Town, Lahore, 54000 |  faisalirshadkhan8@gmail.com |  [faisalirshadkhan8](https://github.com/faisalirshadkhan8) |

Objective

Aspiring Software Engineer with hands-on experience in MERN stack and full-stack development. Seeking an internship at Devorbis to contribute to impactful, real-world software solutions using modern technologies like React.js and Node.js.

Education

❖ **BS Software Engineering | Superior University, Lahore** 2022 – Present

Relevant Coursework: Data Structures, Algorithms, Software Engineering, Operating Systems, Computer Architecture.

Projects

Lenexa Ecommerce Store (05/2025 – Present)

Developing a fully functional e-commerce platform to enhance full-stack development skills.
Stack: React (Vite), Node.js, Express.js, MongoDB

- Developed user-facing UI with responsive design and dynamic routing
- Built backend APIs for product, order, and user management
- Integrated user authentication and a secure admin panel

Mind Sense Analyzer (01/2025 – 04/2025)

Emotion Detection Tool – Superior University
A Django-based tool analyzing user input to detect emotional states and provide well-being suggestions.
Stack: Python, Django, NLTK (Natural Language Toolkit)

- Implemented NLP pipelines to classify text emotions
- Designed REST APIs and integrated frontend logic
- Promoted mental health awareness through intelligent insights

Little Momo Admin Panel (02/2025 – 03/2025)

Restaurant Admin Dashboard – Superior University
Created a full-featured admin panel to manage customers, orders, and menus.
Stack: React.js, Material UI, Firebase (Firestore + Authentication)

- Real-time data synchronization using Firestore
- Secure login and role-based access
- Responsive UI for seamless admin experience

Farm2Market Platform (10/2024 – 12/2024)

Agri-eCommerce Web App – Superior University
An e-commerce platform empowering farmer to sell agricultural goods online.
Stack: Next.js, NestJS, MariaDB

- User authentication, product listings, cart, and order tracking
- Built secure RESTful APIs for all backend operations
- Enhanced accessibility for rural users with responsive UI

Skills

Languages & Frameworks: JavaScript, Python, C++, React.js, Next.js, Node.js, Express.js, Django

Tools & Databases: MongoDB, Firebase, Supabase, XAMPP, Git, GitHub, REST APIs

Other Skills: Problem Solving, Communication, Team Collaboration, Debugging, Attention to Detail

Highlights for Devorbis Internship

- Solid foundation in **full stack development**, REST APIs, and secure authentication
- Experience working on **real-world projects** using React.js, Firebase, and Node.js
- Strong understanding of **scalable application architecture**
- Proactive team player with excellent **problem-solving and debugging skills**
